

Keeping in line with our philosophy about recycling, even our corporate headquarters is a recycled, otherwise ignored building that was refurbished for our needs

OUR PHILOSOPHY

"We no longer live in a don't ask don't tell world regarding disposal of electronic equipment. Therefore we work closely with the Illinois Department of Commerce and Economic Opportunity (DCEO) to reduce the amount of equipment that would otherwise end up in landfills"

"We challenge you and everyone else, to help divert electronics from trash heaps to a better alternative by contacting collection and processing facilities like ours."
