Enclosed is a copy of the requirements that apply to this facility. Please be aware that it is the continuing obligation of persons associated with a site to ensure that the facility is managed in a manner that does not cause a nuisance or endangerment of the public health and welfare and remains in compliance with applicable state laws and regulations. Please note that the facility may be subject to other regulatory requirements (e.g. storm water permits, air emission permits, etc.) and is required to obtain such authorization prior to commencing operations. Failure to operate and maintain the facility as proposed in the current Notice of Intent form will be considered a violation that may be subject to enforcement action.

If you have any questions about this letter, please contact Mr. Michael Talbert at (512) 239-6467. When addressing written correspondence, please include the mail code MC 124.

For assistance with other required authorizations, please contact the TCEQ Small Business and Local Government Assistance Section at (800) 447-2287 or access the MSW Permit Section's website at
